1. The two barracks installations on Waltershauserstrasse, Gotha (H 51/J 06), seemed to be occupied to capacity on 20 November 1950. Soldiers observed wore red-bordered black epaulets, some of them with artillery insignia. Only a few soldiers were seen in the barracks yards. No regular training activity was observed. Three groups, each of two officers and 10 N, practiced firing at a site in the rear of the eastern barracks installation.

2. On 20 November, the barracks installation on Ohrdrufferstrasse quartered Volkspolizei. Restoration work was being done on the installation. \*\*
